"Current IT Trends"

By

Sachin V Prabhu,Solution Architect & Technical Specialist

SAP Business Technology Platform & SAP UI

Bangalore, Alumnus of PESIAMS(BCA - 2014 Batch)

Date: 31-12-2022

A Special talk was organized on the topic, "**Current IT Trends"** for I Semester BCA/B. Sc and V Semester BCA students. The resource person, **Sachin V Prabhu**, began his talk by giving a brief introduction on current IT trends and its importance. He shared his thoughts information on technological aspects used in IT industry like Organization structure, software cycles, Technology space and so on. He also enlightened the students that technology space has became the basic requirement in the current IT Industry and most of the reputed IT companies are now using **Software Tools** to take business data driven decisions efficiently in the right time. Further, he listed the skills that one has to incorporate to become successful IT professionals.

The speaker gave real time examples about digital twin, weather forecast, flight simulator and architecture as a sample project that are using machine learning models which has changed the interpretation of data that has changed the business model. Mr. Sachin guided the students how to enhance their skillset to have brighter future. He also described about how the companies make use of the Software tools by giving various examples. He suggested the students to develop small applications on their own by using simple applications and software. He motivated the final year students that if they develop their final year project by embedded IoTtechnologies and web matrix interface they will be having an opportunity to IT industry.

He concluded the session by motivating the students to explore in the field of Corporates current technology. The talk was followed by an interactive session. The talk has proven to be very inspiring and informative for all the students.
