Cluster Forum

Organized

Alumni Series of Presentation

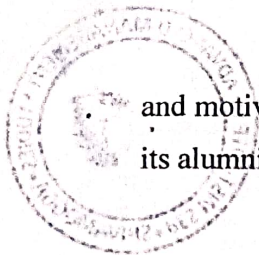

The Alumni Interaction Series is an initiation taken by the Computer Science department, to connect current students with alumni who have successfully established themselves in their respective fields. The session was arranged for BCA fifth semester students. The objective of this initiative is to inspire and motivate current students by showcasing the success stories of their alumni, and to provide them with valuable insights and guidance for their future careers.

The first presentation in the series was held on 25 February 2023, and featured Ms. Ananya Shetty (Batch 2017-2019) an alumna of the department who is currently a Software Engineer in TCS, Bangalore. During the presentation, Ms. Ananya shared her experiences and insights on topics such as career opportunities, Corporate structure, Additional courses and the importance of degree course. The speaker interacted with the audience and addressed their questions and concerns regarding during the session, she has shared his insights and knowledge about the Programming skills, discussing various aspects. She also shared her views on the future outlook of the IT sector apart from this she also insisted the young stars to take up the additional courses such as fullstack development python etc... which would help them in their performances.

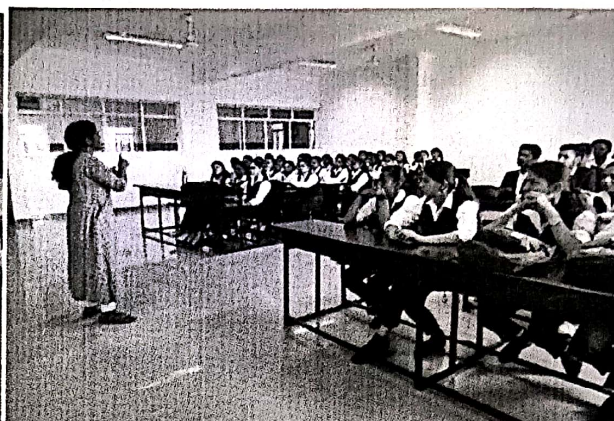

Overall, the interaction with Ms. Ananya Shetty proved to be highly informative and insightful for the students. The students gained valuable insights into the Corporate Structure & Career opportunities.

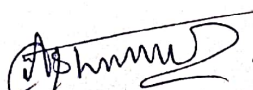

Moving forward, the Computer Science Department plans to organize similar sessions on a regular basis, with alumni from various industries and professions being invited to share their experiences and perception. The department hopes that these presentations will not only inspire

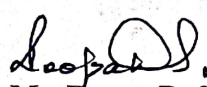

and motivate current students, but also help to strengthen the bond between the department and its alumni community.
